

DJ-REMIXING

DJs/Turntablists will develop their skills in mixing, scratching and beatjuggling, in addition to exploring sampling and software applications for remixing, producing music mixes and blending.

This Career Track is open to students that wish to move their DJ-Remixing abilities to a more advanced level.

Submission Requirements

Two examples of the student mixing, scratching or beatjuggling on a VHS tape or DVD.

The media must be labeled (DVD or VHS) with your first and last name and the Career Track you are applying for.

Optional

Submit an example of any remixes the student has produced. This is not a requirement and not submitting does not disqualify the student. It is an additional option for the application.
